

Personal ID Solutions Card Printers & Consumables

Card Printers

ICS can supply a wide range of card printers suitable for producing simple, single colour business cards or ID badges, up to full colour, dual sided cards with holographic lamination on plastic pvc cards. Our card printers are supplied complete with Windows 95/98/NT/2000 and XP printer drivers, some with Vista and all cables ready for connection to any software package. Added features across the range include Hi/Lo-Co switchable mag-stripe card encoders as well as optional contact or contactless readers. Whatever the requirement and size of business, there is a card printer to suit the application. Examples are shown below but contact our technical specialist to review all the options available.

Single side printing

Dual side printing

Consumables

To compliment our ID card services, we also offer a varied range of consumables from badge holders to printer ribbons.

Open faced rigid badge holders

Flexible PVC badge holders

Breakaway safety lanyard

Metal strap clip

Chain Necklace

Card Technologies

ICS can supply all types of smart card technologies either blank, pre-printed or fully printed and programmed via our card bureau service. Our reputation for quality and service is second to none and our products conform to all respective ISO standards. Whether you require mag-stripe, contact cards or contactless RFID technology, call our sales team for more information.

About ICS

Integrated Card Solutions Limited (ICS) is the leading supplier of print & copy control products in the UK. ICS offer a wide range of intelligent software, biometric and card-based solutions, including the proprietary XPR Enterprise® range. Together, these provide a single solution for outstanding print and copy management services, access control, photo ID (including full card encryption) and many cashless applications.

Established in 1996, ICS has a broad client base including 80% of all tertiary educational establishments in the UK, local government and NHS Trusts as well as many commercial enterprises.

Using the ICS XPR Enterprise® range in conjunction with carefully selected partners, our solutions provide

- Outstanding print and copy management
- Cashless environments including cash-on-card or account based systems
- Access Control
- Flexible Photo ID

These can be combined in a one-card solution, providing an easy-to-use, scalable and flexible system. Our clients report significant cost-savings after implementation, with enhanced management control and reporting

ICS print and copy management solutions

- Can reduce your print costs by between 20% and 50%
- Provide control of how, when and where documents are printed
- Provide easy-to-use management reports.

In addition, ICS employ a talented team of software developers and have delivered customised solutions to organisation across the UK.

Delivering the best solution for *your* needs, ICS work with the best partners and people from around the world.
