

XPR Enterprise® Touchpad Print & Copy Control Payment Terminal

Key Function

The XPR Enterprise® Touchpad is a robust and easy to use terminal which facilitates secure control of print and copy document output. If required, it allows for payments to be made on account or allocated to a cost centre. It is designed to work with Pcounter, the award-winning print & copy management software. Using this software helps reduce or eradicate printed waste, giving organisations significant cost savings.

Features

- Easy to use touch screen
- Secure printing. At point of printing, the user releases print documents on demand
- Accepts all common card technologies, with or without pin protection (See specifications below for details)
- Includes 2-port Ethernet Hub; no need for two hard-wired network ports, this minimises disruption to existing infrastructure
- Works with any printer, photocopier or multifunctional device
- Card association option. Easily assign cards to user accounts

XPR Enterprise® Payment Terminal

Benefits

- Secure and easy to use
- Print & copy costs can be recovered by allocating to departments, projects or users
- Reduces waste as only verified documents are printed
- Integrates with Active or eDirectory for simple user management

Ideal For

- Education and academic establishments
- Local government and other public sector organisations
- Corporations, financial & professional institutions

About ICS

Integrated Card Solutions Limited (ICS) is the leading supplier of print & copy control products in the UK. ICS offer a wide range of intelligent software, biometric and card-based solutions, including the proprietary XPR Enterprise® range. Together, these provide a single solution for outstanding print and copy management services, access control, photo ID (including full card encryption) and many cashless applications.

Established in 1996, ICS has a broad client base including 80% of all tertiary educational establishments in the UK, local government and NHS Trusts as well as many commercial enterprises.

Using the ICS XPR Enterprise® range in conjunction with carefully selected partners, our solutions provide

- Outstanding print and copy management
- Cashless environments including cash-on-card or account based systems
- Access Control
- Flexible Photo ID

These can be combined in a one-card solution, providing an easy-to-use, scalable and flexible system. Our clients report significant cost-savings after implementation, with enhanced management control and reporting

ICS print and copy management solutions

- Can reduce your print costs by between 20% and 50%
- Provide control of how, when and where documents are printed
- Provide easy-to-use management reports.

In addition, ICS employ a talented team of software developers and have delivered customised solutions to organisation across the UK.

Delivering the best solution for *your* needs, ICS work with the best partners and people from around the world.
