

XPR Enterprise® WebPay Web Payment for Print and Copy

Key Function

XPR Enterprise® WebPay allows print and copy accounts to be topped-up or managed online. It is easy-to-use, quick and secure.

WebPay reduces cash handling for the host organisation. Account holders benefit from improved accessibility to their account and it eradicates the need to visit a kiosk or pay-desk to top-up. Users can top-up from their home, office or even iPhone: anywhere there is an instant connection.

Features

- Top-up and account management is easy from any internet-connected device
- Supports all major credit and debit cards
- Simple new user registration
- Transactions are implemented instantly
- Transaction history is stored for view
- Online display is customised (branded) for each host organisation and delivers seamless integration to the host's website

Benefits

- Reduces cash handling for host organisations
- More convenient for account holders
- Secure, reliable and fully certified
- Available 24 hours a day, 7 days a week
- Flat monthly fee makes budgeting easier

Ideal for:

- Education and academic establishments
- Libraries and other public sector organisations
- Any cashless environment

About ICS

Integrated Card Solutions Limited (ICS) is the leading supplier of print & copy control products in the UK. ICS offer a wide range of intelligent software, biometric and card-based solutions, including the proprietary XPR Enterprise® range. Together, these provide a single solution for outstanding print and copy management services, access control, photo ID (including full card encryption) and many cashless applications.

Established in 1996, ICS has a broad client base including 80% of all tertiary educational establishments in the UK, local government and NHS Trusts as well as many commercial enterprises.

Using the ICS XPR Enterprise® range in conjunction with carefully selected partners, our solutions provide

- Outstanding print and copy management
- Cashless environments including cash-on-card or account based systems
- Access Control
- Flexible Photo ID

These can be combined in a one-card solution, providing an easy-to-use, scalable and flexible system. Our clients report significant cost-savings after implementation, with enhanced management control and reporting

ICS print and copy management solutions

- Can reduce your print costs by between 20% and 50%
- Provide control of how, when and where documents are printed
- Provide easy-to-use management reports.

In addition, ICS employ a talented team of software developers and have delivered customised solutions to organisation across the UK.

Delivering the best solution for *your* needs, ICS work with the best partners and people from around the world.
